My name is Masood, I am a Full Stack Developer with an experience level of 3 years. My job is creating professional web and mobile services for my clients.

I work on the following technologies and created bunch of real world applications using them:-

Programming Languages- JavaScript.

Front-End Skills- HTML5, CSS3, JavaScript, Typescript, Bootstrap, React, Next Js, React Native, Electron, Tailwind CSS, SAAS/SCSS, Material UI.

Back-End Skills- Node.js.

Databases- MongoDB, MySQL, Sqlite.

Other Tools- GitHub, Firebase.

I always work hard in order to achieve my goals and i can learn new things very fast. I am a BSCS focused developer who wants to join a respectful company to work.

Best Regards,
Masood Ur Rehman

Work Experience

Full Stack Developer

Kohat Incubation Center - Kohat

March 2022 to July 2022

I have been a member and co-founder of a startup called "Ziaqa". We have been working on a new idea which was to promote home made food. And for this i was selected for a role of full stack developer. My job was to create web and mobile application along with my team members. The tenure of this start-up was 6 months but I spent 4 months and appreciated a lot by my founder and team members due to my work. I have very nice experience in this time period, gained a lot of confidence, team work abilities and specially the meeting with many mentors and entrepreneurs motivated me alot.
